

Call for Papers

3rd End-of-Year Conference of Swiss Economists Abroad

December 22nd, 2008 at Universität Zürich

Abstract submission deadline: September 1st, 2008

Economists from Switzerland are doing research all around the globe. The Network of Swiss Economists Abroad and its annual end-of-year conference aim to facilitate the contact and academic exchange between those researchers.

Eligibility: We are accepting papers in all fields of economics from economists who are from Switzerland or have strong ties to Switzerland (e.g. BA or PhD from Switzerland) and are currently conducting academic research abroad. There will be special sessions for PhD students to present preliminary research projects.

Submission: Please submit an abstract of your paper through the online submission form at www.swisseconomistsabroad.org/meetings/ before September 1, 2008. We will send you a tentative schedule for the conference by mid-September.

Funding: The Swiss National Bank generously supports the conference event and the Swiss Society of Economics and Statistics offers generous travel grants for PhD students who present at the conference.

We are very much looking forward to your submissions. Thank you in advance for passing this information on to Swiss economists outside of Switzerland that you may know and who are not yet members of the network.

For any additional questions or to join Swiss Economists Abroad, please don't hesitate to contact the organizers:

Stephan Meier (Columbia Business School and Federal Reserve Boston)
stephan.meier@swisseconomistsabroad.org

Dina Pomeranz (Harvard University)
